

Do You Have...

- Cold Floors?
- High Heat Bills?
- Allergies?
- A musty smell in your house?
- Dampness in the house or crawlspace?
- Mice or rodents in or under your house?

Do You Want The Potential To...

- Have warmer floors?
- Save on heating bills?
- Reduce dampness?
- Keep mice and rodents out?

Why Replace Your Current Crawlspace Vents With Ultra CSV® Crawlspace Vents?

To...

- ...Increase crawlspace airflow by over 50%
- ...Save money by helping to reduce heat loss through crawlspace vents
- ...Aid and assist in reducing moisture
- ...Keep rodents and mice out
- ...Insulate your crawlspace from outside your house (if recommended)
- ...Help prevent your pipes from freezing
- ...Easy to use: open and close from the exterior
- ...Easy to clean
- ...Heavy duty screen

Endorsed by many industrial
professionals

Here is a link to look at the new patented **CSV Crawlspace Vent**: www.bbdistributors.biz
It can be installed in new homes or retro-fitted into existing homes. Why use a \$7.00 vent that doesn't work the way it is supposed to on such a huge investment: Your Home. Give the homeowner a great product that does what it is meant to!

The **CSV Crawlspace Vent** can be installed, opened, closed, insulated and sealed from the outside of the home. No more crawling around in tight spaces!

Barber Construction, Inc. recommends this vent to all of its clients.

Thank you again for your time,

Tom Barber
